Hi David - we are briefing Chair Dean's at 3:30 regarding the truck demo. It might be a good area you attend the briefing in case the demo doesn't endnotes Sunday and an injunction is required.

Hi Christian's. I wasn't able to attend but if there are issues that OPS believes warrant an effort to obtain an injunction then let me know. I assume that your team is coordinating with our Traffic and Emergency Services groups in that regard.

Good afternoon David. Sorry I only thought to forward you the invite at the last minute. Yes, the OPS is actively coordinating with the city. I'll be sure to update you over the weekend if things deteriorate to the point of an injunction

Sorry to bug so late in the day but I'm having difficulties getting a copy of an insurance certificate for the MOUs to have other services send members to us for help. Who should I contact? I know it's late in the day but this was a last minute request.
